

Wooden Egg On A Spoon

A fun relay game. 6 teams are picked, or less if there's not enough people. Each team is given a wooden egg and wooden spoon. When the caller says go, each team must go to one end of the dance floor, turn around, and come back without dropping the egg. One hand is placed behind the players back.

Then the next player takes over, when all team members have gone back and forth, they are the winning team.
